

## EXTRA HEAVY DUTY MOBILE SAFETY STEPS

This is a truly heavyweight industrial safety step. It has a generous platform size to allow safe operation and comes complete with a double handrail. The construction is from an upgraded box section and 25mm dia tube specification with a solid axle bar plus heavy duty wheels as standard. Suitable for use in warehouses, yards and factory environments.

- Load capacity: 500kg.
- Metal or pvc treads.
- Platform: 700 x 600mm.
- Treads: 700 x 200mm.
- Platform heights: 1250 - 3750mm.
- 5 tread models and above are fitted with the unique central safety brake system.
- Durable high gloss powder coated finish in a choice of blue, red, yellow, orange, grey or green colour.
- Toe plate fitted to all three sides of working platform.
