

ALUMINIUM TRADE EXTENSION LADDER

Suitable for professional and non-professional use. Excellent construction in aluminium that will provide years of durable and robust service.

- EN 131 certification.
- 150kg max load.
- Box section stiles for great strength and rigidity.
- Single section has box rungs. Double and triple sections have 'D' rungs for slip-resistance and comfort use.
- Thumb locking catches prevent sections separating.
- Heavy duty non-slip base stabiliser bar on models over 3m open length.

Double section

Single section

Triple section

* Based on 1.75m as the average reach height of a person.

** Stabiliser bar not required or supplied with this model.
