Can last the whole shift no top-up charging needed!

FULLY ELECTRIC PALLET TRUCK

This electric travel and lift truck is an all-rounder for diverse applications. It features the ability to hold two 24v/20Ah batteries, so that one can just be used for occasional usage - estimated 5.5 hours or both used to achieve up to 11 hours heavy duty use.

- Choose from four different chassis by application.
- Rear castor wheel option.
- 1500kg capacity.
- Choice of fork sizes L x W: 900/1200/1150/1220/1350/1500 x 560 or 685mm.
- Lift height: 105mm.
- O/S L x W x H: 400 + fork length x 590/695 x 1190mm.

MAXIMIN FULLY ELECTRIC PALLET TRUCK

Ingenuous design means that all of the electrical drive and lift unit is contained in a very small area which means that the truck is light, highly manoeuvrable and extremely easy to operate. Revolutionary design means modular structure that makes maintenance and servicing far easier.

- 1500kg capacity.
- Electric drive and lift.
- Superb turning radius - only 1475mm.
- Electro-magnetic brake.

Increase efficiency and save money!

SEMI ELECTRIC PALLET TRUCK

It's halfway between a hand pallet truck and a fully electric model. This model has electric travel combined with manual hydraulic lift. Designed and built to be highly efficient, energy saving and compact.

- Ideal for 'back of lorry' work or for working in confined spaces.
- Ergonomic handle control.
- Reverse button.
- Emergency stop.
- Automatic electro magnetic brake.
- Drive wheel cover.
- Built-in charger.
- Maintenance-free battery.
- 1500kg capacity.
- Fork size: 560 x 1150mm or 685 x 1150mm.
- Lift height: 115mm.
- Weight: 140kg.
