WEIGH SCALE ELECTRIC PALLET TRUCK

A superbly engineered truck that combines the benefits of using an all electric pallet truck with that of a weighing scale. Save time and money by being able to transport goods quickly from point to point and weigh them accurately as and when required.

- 1500kg capacity, load centre 600mm.
- Overall size L x W x H: 1600 x 560 x 1170mm.
- Lift height: 115mm.
- Unit has a great turning radius of only 1475mm so it is easy to use in confined spaces and tight aisle widths.
- Small body size and weighing only 205kg means that it is ergonomic and easy to use.
- CE certification.
- Maintenance-free battery 24v/60Ah.
- Option of printer supplied - please enquire for price.
