Helps to take the strain out of the job

### LIGHT DUTY FULLY ELECTRIC STACKERS

A range of 4 stackers with a choice of mono single mast for ease of operator view or the more traditional mast with twin framed mast. Complete with battery and charger. They have excellent turning circle for operation in tight areas.

- Lift heights 1600mm or 3000mm - alternative 1955, 2700, 3300mm heights are available.
- Lift capacity: 1000kg.
- DC drive control from Curtis.
- Gel battery 2 x 12/80 V/Ah mono mast, 2 x 12/105 V/Ah twin mast.
- Narrow or straddle wheel arms.
- Capacity: 1000kg.
- At load centre: 600mm.
- Polyurethane wheels.
