LOW PROFILE JIB ATTACHMENT

Low Profile Jibs are specifically designed to convert a forklift truck into a mobile crane. Allowing increased flexibility to reach and transport long and awkward loads where a height restriction may apply. Extending jib models are for particularly long loads.

Fixed Jib

Heel pin

- Standard features:
- Multi-hook positioning.
 - All models suitable for a maximum 150 x 50mm forks.
 - Zinc plated fork heel pins for safe attachment to truck.

- Supplied complete with safety swivel hook and bow shackle for immediate use.
- Polyester powder coated in bright orange for safety.
- Fork spacing: 450mm.
