

WHEELIE BIN AND DRUM ROTATOR ATTACHMENT

Designed for use in areas where drums and wheelie bins are used, this drum rotator has a special girdle that allows both to be clamped around their mid points and rotated. Can be rotated by either means of a crank handle or loop chain. Handles 210 litre drums and 120/240 litre wheelie bins. Bin/drum is located in the girdle by a ratchet and webbing strap. Capacity is 360kg.

REF	Max fork size	Method of operation	Drum type	PRICE
DTR-1-MP	140 x 50	Crank handle	Wheelie bin	£1966.55
DTR-2-MP	140 x 50	Loop chain	Wheelie bin	£2127.50

WHEELIE DRUM HANDLER ATTACHMENT

The unique attachment allows wheelie bins to be picked up and emptied into a skip or container. The bin is picked up via the rear handles and a pull cord attached to the wheel. The other end is fed through a winch, which is located onto the truck cab. When the mast is raised and/or the winch is opened the rear end of the wheelie bin is pivoted upwards to allow the lid to open and the contents discharged. The winch/pulley mechanism can be mounted to the left or right depending on the offset of the fork truck seat. Supplied complete with locating stand. Only suitable for small wheelie bins and use with light waste.

REF	Capacity kg	Max fork size	Fork spread	Wheelie bin type	Weight kg	PRICE
FM-WBH-L	200	145 x 60	507mm	90-240 litre	65	£1039.70
FM-WBH-R	200	145 x 60	507mm	90-240 litre	65	£1039.70

CARPET POLE ATTACHMENT

Carpet Poles are designed for efficient and safe handling of long coiled or round loads of fabric, carpet or other types of coverings. The ICP range are carriage mounted and IFB range are fork mounted for a quick change solution.

Standard features:

- High tensile pole with a tapered end for easy location.
- Smooth finish to protect carpets.
- Polyester powder coated bright orange/matt black for safety.

REF	IFA/FEM Class	Boom dia mm	Length mm	Cap kg @ 1829mm	Lost load centre mm	Centre of gravity mm	PRICE
