

WIRE MESH PALLET CAGES

STACKABLE PALLET CAGES

Constructed to withstand constant use. Easy to assemble and fold for storage. Location spigots for safe stacking. Most suitable for retailing, shipping, transporting and merchandising.

- All models provided with a half drop gate on one long side, except 15.739 which has a half opening gate on one long side.
- Patented semi-auto latch for simple assembly.
- Electroplated finish.
- Extra reinforced models on request.
- Stack up to 4 high.

Folded units

Stacked units

REF	Overall size mm (nominal)	Int. ht mm	Folded ht mm	Gate aperture mm	Weight each kg	Cap kg	PRICE
15.739	850 x 600 x 670	540	230	660x400	18	350	£108.08
15.HC2	800 x 1200 x 1000	850	280	1200x425	46	1000	£204.15
15.HC3	1000 x 1200 x 1000	850	280	1200x425	51	1000	£219.38

STACKABLE RETENTION UNITS

With the introduction of a retention unit a wooden pallet is transformed into a stackable container. Ideal for visual storage in racking with access via half drop gate. Also to retain the load in transit. Many uses in most trades including retailing, shipping, transport and merchandising.

- Suitable to stack four units high.
- Constructed from 60 x 105mm mesh and bright electro zinc plated.
- Cleats are normally fitted on 1200mm side but can be changed to 800/1000 side for small extra charge.

Also available non stacking retention units type RU11/MP. Size to suit 1000 x 1200mm pallets, with the internal height of 1000mm.

PLASTIC 4 WAY ENTRY PALLET

Ideally suited to use within the food industry. The smooth sealed top deck means there are less areas where dirt and dust can collect making them hygienic and easy to clean. The four way entry allows easy access at any angle.

- Capacity: 1000kg.
- Weight: 56kg.
- Available in green, white, red, blue and yellow.
- Also available with lipped edge.
