POWERED ARM LIFT WITH TILT SCISSOR LIFT

Lifts the load with parallel arms and includes a tilting facility +5° to -40°.

- 'ALTU' and 'UE' models have a shaped platform for lifting pallets and trolleys directly from the ground.
- If a conveyor is required the height of the back edge can be manufactured to suit (standard height = 229mm).
- Pre-drilled holes for installing an auto-rise stop on the platform.
