

## ADV STACKING CHAIRS

This polypropylene stacking chair is available in eight shell colours with a black plastic frame. The keyhole located in the chair back makes a useful carrying handle. Make your chair all the more comfortable with the addition of a seat pad or seat and back pad. Then add a linking option if you need to group your chairs.

- Shell colour options: Green, blue, red, charcoal, beige, brown, orange and black.
- Ideal for outdoor use.

Seat pad colour options:

## COMFORT/ECONOMY FOLDING POLYPROPYLENE CHAIRS

### Comfort Poly:

This stylish folding chair with its contoured back offers exceptional comfort. The tall back provides extra support and convenient hand hold makes for easy handling. The double riveted cross-brace prevents the legs from sinking into the ground at outdoor events. Once folded flat the chairs will interlink and can therefore be safely stacked up to forty high.

### Economy Poly:

The original polypropylene chair is tough but lightweight and extremely versatile. The horizontal inter-locking design ensures that a stack of chairs stays vertical and stable. Both models are available in three colours: Burgundy, blue and charcoal (please state preference when ordering) and sold in packs of eight only.
