CROSS LINK BARRIER

A blow moulded barrier manufactured from UV stabilised impact modified HDPE. The design process was carried out in tandem with leading UK contractors to maximise wind flow through and around the system for unbeatable stability. Tested to ensure wind stability classes within BS8442 are achieved.

- Designed with compatibility in mind. You can easily link the barrier system with other barriers.
- The flexible linking allows for the barrier system to be easily deployed on uneven ground such as rough terrain and kerbs.
- Stackable for ease of transport and storage.
- Stability can be increased even further with the addition of the stability poles.

REF	Description	PRICE
KBR079-000-800	Frontier barrier - standard feet	£127.44
KBS079-000-800	Frontier barrier - anti-trip feet	£135.22
KVM010-000-200	Stabilising pole	£30.06
