HI-VIS PLASTIC CHAIN POSTS

An extremely flexible system that provides either temporary or permanent segregation of pedestrians from vehicular traffic. The patented rotating head design ensures that the installation and removal of chains is extremely easy and simple. The head can be secured to prevent unauthorised removal of the chains.

- Moulded bases with reflectors.
- Temporary or permanent installation.
- Base can be weighed with water or sand.
- Powder coated aluminium posts.
- Patented head design.
- Secure four point fixing for permanent installations.
- Choose chain of 6mm dia to suit posts. See below for chain packs.

Post colour	REF	PRICE

- Price shown is per post.

Post dia: 50mm.
Post height: 900mm.
Post colours: Red/white and yellow/black.
Base: 280 x 280mm.
Total weight: 4.5kg.

Colour	Base mm	REF	PRICE
Red/white	280 x 280	175.15.959	£95.62
Black/yellow	280 x 280	175.18.435	£95.62

BARRIER PLASTIC CHAIN PACKS

1. Manufactured from polyethylene, these lightweight chains are best employed for interior use and are extremely economical in price.
 2. Produced in high quality ultra-violet and weather resistant nylon. The links are non-conductive to electricity.
 3. Produced in galvanised steel and coated with weather resistant polyester, these chains offer excellent strength as well as enhanced corrosion protection. They are best suited to applications where strength and durability are required.
- We are also able to supply a wider range of sizes and connecting links. Chain can be supplied in steel and stainless steel - please enquire for details.
