

WHEELCHAIR & LIGHTWEIGHT ACCESS RAMPS

LIGHTWEIGHT ACCESS RAMP

This versatile ramp can be used for a number of situations: foot and wheelchair access for kerbs and doorways, taking handling trucks over obstacles and entry into vehicles, either as a ramp or as a bridge between the vehicle and the loading bay edge.

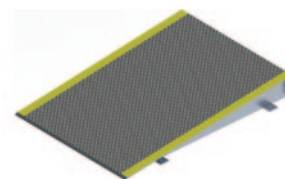

- Built-in 75mm high side curbs along each side of ramp.
- 150mm lip for location on the vehicle or building.
- Castors on each side for ease of movement.
- Built-in lifting handle.
- Anti-slip surface.

FIXED ALUMINIUM RAMPS

Strong and robust, this fixed ramp is suitable for wheelchairs, trucks and foot access where the ramp does not need to be adjustable in height.

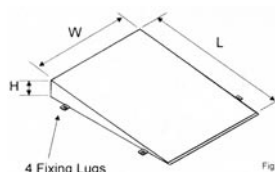

- Manufactured from aluminium with an anti-slip grit coating.
- Includes fixing lugs for securing to the ground.
- Marker lines on each side of ramp.
- Safety side curbs and handrails available at an extra cost.

Our expert says

Allows easy access through external doors

KERB RAMP

An effective and convenient way to allow vehicles, trolleys and wheelchairs to mount kerbs easily. Available in two different heights to suit most applications.

The ramps with yellow reflective panels also feature channels in the base which allow for the passage of rainwater or can be used to route cables through etc.

- Quickly deployed.
- All rubber construction.
- Suits vehicle weights up to 40 tonne.
- Colour: black with yellow reflective panels.
