SPILL CONTROL BOOMS

A range of absorbent booms for all situations and incidents. The best and most tested oil absorbent booms. The traditional tie joints can be used to make any length and will not allow booms to drift apart. The most positive method of attaching booms together. UV stabilised. Will not deteriorate when outside for long periods. Weight ensures that boom will not lift in bad weather conditions.

REF	Sorbency	Absorbency	Size	Pack qty	PRICE
0105/3	Oil	120-130	12.5cm x 3m	4	£129.46

0312/4	Maintenance	102-160	20cm x 4m	2	£110.43

DAMMIT EMERGENCY SPILL DRAIN MATS

- The most effective low cost drainseal on the market.
- The three sizes will fit most drains - if not simply use two mats.
- Used by most fire services as first line pollution defense.
- This product gives 100% seal even on rough surfaces.
- Resistant to oil, water and most chemicals.
- Simple to use - peel off cover and tread onto drain. Place in areas of high risk in the wall mounted box.
- Also available as a gulley blocker for blocking long gulley drains.
- Remains flexible to -20°C.
