

A Fires involving: **SOLID MATERIALS**

Usually of an organic nature in which combustion takes place with the formation of glowing embers. (These are normally carbonaceous fires). Eg wood, paper, textiles etc.

B Fires involving: **LIQUIDS or LIQUEFIABLE SOLIDS**

Eg petrol, diesel, paint, solvents etc.

C Fires involving: **GASES**

Eg propane, butane, natural gas etc.

D Fires involving: **METALS**

Eg magnesium, aluminium etc.

F Fires involving: **COOKING OILS and FAT**

Fires involving: **ELECTRICAL EQUIPMENT**

Eg photocopiers, computers etc.

AFF FOAM FIRE EXTINGUISHER

Foam extinguishers can be used on both Class A and Class B fires containing materials such as wood, paper and other solid combustibles as well as flammable liquids including petrol and spirits.

They contain a foam which produces a skin like layer to help cool blistering temperatures. As well as reducing the temperature, this starves a fire of oxygen and breaks resulting in the blaze struggling to stay alight. Another key property of the foam is its ability to soak its way into absorbent fuel sources reducing the risk of reignition.

- Easy to use - squeeze grip to operate with spray nozzle.
- Polyethylene internal lining to safeguard against corrosion.
- Easy to read pressure gauge.
- Mounting bracket provided.
- Supplied ready filled and pressurised.

REF	Cap ltr	H x Dia mm	Rating	PRICE

FOA005	9	616 x 184	21A / 183B	£65.98

WET CHEMICAL EXTINGUISHER

Specifically designed to deal with Class F fires involving cooking oils and fat. Ideal for in kitchens and restaurants. Often referred to as 'F Class fire extinguishers', it is the only type of extinguisher that should ever be used on kitchen fires. They work by starting a chemical reaction with fats and oil which reduces the temperature.

- Corrosive-free stainless steel.
- Can be used on class A fires.
- The chemical seals the surface of the burning oil to prevent re-ignition.
- Supplied with a unique hose swivel joint for ease of direction of discharge.

REF	Cap ltr	H x Dia mm	Rating	PRICE
WCH003	3	440 x 130	13A / 70B / 40F	£113.98
WCH004	6	553 x 162	13A / 75F	£135.98

CO2 FIRE EXTINGUISHER

Carbon dioxide extinguishers produce gas which replaces oxygen in blazes and takes away the air, leaving a fire unable to keep burning. Ideal in small offices, business premises, shops and warehouses. Team CO2 canisters with a water or foam extinguisher, to cover all fire situations. No damage is caused to computers, photocopiers and printers.

- 5 year warranty.
- Kite marked to BS EN3 standards.
- Comes complete with wall mounting brackets.
- Non-toxic and harmless to fabrics, food and electrical equipment/machinery.

CO2001	2kg	575 x 104	34B	£62.98
CO2002	5kg	770 x 136	55b	£108.98

WATER FIRE EXTINGUISHERS

Suitable for tackling Class A fires involving common combustible materials such as wood, plastics and paper. Water fire extinguishers should never be used on electrical fires.

- 13A Fire rating.
- Kite marked to BS EN3.
- Supplied complete with mounting bracket.
- Easy to read pressure gauge.

BL007	1.8 x 1.8	£40.38

FIRE BUCKETS

Preemptive firefighting plans can begin well before there is any need to panic. One way you can achieve this in certain locations and industries is a clever approach to fire buckets.

- 10 litre capacity.
- FIRE sticker supplied.
- Wall mounting bracket available separately.

REF	Description	PRICE
BU001	Plastic fire bucket with lid	£21.98

ABC POWDER FIRE EXTINGUISHER

The highly versatile, dry powder fire extinguisher is ideal for environments with a mixed fire risk. Dry Powder extinguishers are used on Class A, B and C fires as well as electrical and vehicle fires. They cover a range of hazards including flammable gases, wood, paper, textiles, petrol, paint and oil. Their adaptability means they are most commonly used in workshops, industrial units and outdoor locations such as petrol stations and building sites. You should determine what extinguisher you will need from your fire risk assessment. Dry powder prevents the chemical process occurring during the fire, providing a rapid decrease of flames.

- Mounting bracket provided.
- Safe to use on electrical equipment.
- Supplied ready filled and pressurised.
- 5 Year Warranty.
