

HANGING CRANE SCALE

The SHS hanging crane scale provides a safe way of weighing heavy loads in a suspended manor. Suitable for industrial settings, it has a rugged polycarbonate indicator housing, chrome plated steel hook, safety catch and an oversized swivel shackle and bolt.

Remote control for hands free, safe working

- Strongly lit LED display for easy reading, even in low light.
- Hook rotates to allow quick loading then locks in place for weighing.
- Easily carried due to lightweight design, take it anywhere.
- Robust construction, ideal for industrial use.
- External calibration.
- Resulting weight remains on the screen to allow reading.
- Auto zero tracking when scale is unloaded.
- Saves energy with programmable auto power off.
- Includes rechargeable battery.

REF	Capacity	Readability	O/size W x D x H mm	PRICE
SHS50	50kg	0.01kg	148 x 65 x 320	£211.50
SHS150	150kg	0.02kg		£211.50
SHS300	300kg	0.05kg		£223.50
