
ANTI-SLIP GRP STAIR TREADS

Anti-slip stair treads increase safety on stairways with a gritted surface that provides excellent traction, making them ideal for use indoor or outdoors and can be fitted to concrete, metal or wooden surfaces. They are tough and durable and can be used in any environments, including frost or wet areas, as they will not twist, rot or warp. They also improve the appearance of chipped or damaged steps.

- Available in black, black/white, black/yellow or yellow and a variety of sizes.
- Highest quality fibreglass - 4mm thick.
- Quick and easy installation and can be supplied pre-drilled. Optional screws and adhesive are available.
- Perfect for stairways in schools, residential, leisure, construction, commercial and industrial environments.
