SPRING LIFT PLATFORM TROLLEYS

The deck of these heavy duty spring lift trolleys, levels to a convenient height as it is unloaded, allowing the operator to work in an upright position. This eliminates the need for unnecessary bending reducing the risk of back strain, repetitive strain injury and associated injuries. Each trolley also offers easy to adjust load spring action for lighter/heavier load capacities.

- Hygienic and easy to clean.
- Large carrying capacity.
- Tough polyethylene plastic body.
- Options: colour coding (on quantity orders), castor types and sizes, castor configurations, conductive material.
