

Bespoke Nesting Trolley (with Folding Basket Tray)

“Action Handling maximise speed and efficiency with their Nesting Trolleys”

All our trolleys are designed to comply with Health & Safety standard regulations

Action Handling was contracted by a Leading Convenience Store Group to design and manufacture a set of bespoke Nesting Trolleys for use in stores throughout the UK. Having visited the Head Office and consulting with various Store Managers to confirm why the standard model was not suitable, it was clear that a bespoke solution was required.

Action Handling then designed a bespoke Nesting Trolley with a Folding Basket Tray. When not in use, the trolleys would be easily nested due to the tip-up tray and hinged base platform. The design was approved, Prototypes were supplied for evaluation, then the bulk quantity was manufactured and supplied within 6 weeks

- Easily manoeuvrable on 4 x 100mm non-marking swivel rubber castors, 2 with foot-brake.
- Colour: Blue.
- The top basket is also ideal for transporting additional items.
- All our bespoke Trolleys are designed and manufactured to the customer's unique specification.
- Bespoke models can be manufactured to suit with stainless steel, galvanised or painted finish (colour based on preference).
